

Nature's Way Ambush

FOAM CONCENTRATE FOR CLASS A FIRES

A superior foam concentrate specially formulated for fast knockdown.

Nature's Way Ambush is a concentrated blend of premium, non-toxic, biodegradable surfactants. It was developed for fast knock down and extinguishment of Class A fires with firefighter safety and the environment in mind. The ability of water penetrating and cooling burning materials such as wood, fabrics, paper, and other ordinary combustibles are greatly enhanced. This provides for faster knockdown than water alone, minimizes rekindling in deep-seated fires, and reduces the amount of water necessary to extinguish. Ambush also effectively inhibits organic and inorganic contaminants from polluting the air when showered onto the smoke.

Ambush is a concentrate having a low, consistent viscosity and is easily administered through all types of conventional foam delivery equipment, including compressed air systems. Ambush is no more corrosive to tanks and pump internals than water alone and can be stored in dilution with water in tanks for extended periods. Application rate varies between 0.1% and 1.0%, depending on type of equipment and intended purpose.

Ambush is manufactured using strict quality control measures and designed to meet the requirements of NFPA 298 and UL Standard 162.

- **Increases firefighter safety**
- **Much faster knock down than with water alone**
- **Provides rapid penetration and cooling**
- **Inhibits rekindling**
- **Greatly reduces water usage**
- **Non-toxic, 100% biodegradable**
- **Low, consistent viscosity**
- **Compatible with all foam delivery systems**
- **Priced lower than other premium quality concentrates**
- **No corrosive components**

PHYSICAL FORM

Low viscosity liquid - 100% miscible in water. Pale yellow translucent color

PACKAGING

55 gallon plastic drums (208 L.)

5 gallon plastic pails (19.93 L.)

Bulk (275 gallon containers or larger)

SAFETY

pH - approx. 6

Wet Flammability - nonflammable

Dry Flame Spread - N/A

Threshold Limit Value - Non-Toxic

COVERAGE

Varies with type of equipment and fuel source

TOOLS FOR APPLICATION

All current foam delivery equipment

WEIGHT

8.33 lbs./liquid gallon (1kg/L)

DOT SHIPPING LABEL

None required

APPLICABLE TEST REQUIREMENTS

As required by governing authority

The Nature's Way Line of Bioremediation Products are covered by
U.S. Patent number 5,561,059
ALL INGREDIENTS ARE COMPLETELY BIODEGRADABLE
