

*Nature's Way*

# Gold

Non- Petroleum Solvent Degreaser

## Technical Bulletin

### PHYSICAL FORM

Slightly viscous, translucent gold liquid, fully miscible in water.

### PACKAGING

55 gallon plastic drum (208 L.)  
5 gallon plastic pail (19.93 L.)  
Bulk (330 gallon totes or larger)

### AREAS FOR USE

Cleaning concrete, metal, and other industrial surfaces.

### TEMPERATURE LIMITS

32 deg F to 280 deg F

### SAFETY

Wet Flammability – nonflammable  
Flash Point – 285 degrees F. (PM/CC)  
Dry Flame Spread – N/A  
Threshold Limit Value – Non-Toxic  
Medical – Refer to MSDS

### COVERAGE

100 to 200 sq.ft. per gallon, depending on severity of contamination

### TOOLS FOR APPLICATION

Sprayers, brushes, rollers

### LIMITATIONS

Keep from open flames or surface temperatures above 350 degrees F.

### WEIGHT

8.33 lbs./liquid gallon (1kg/L.)

### DOT SHIPPING LABEL

None required

### APPLICABLE TEST REQUIREMENTS

As required by governing authority.

### DESCRIPTION:

Nature's Way Gold formula is a safe, biodegradable solvent that contains no petroleum or citrus components with no pungent odors or fumes. It is formulated to quickly penetrate and remove petroleum or food based materials, including water resistant greases, tough carbon, tar, and asphaltic materials, mastics, rubber marks, graffiti, and many industrial protective coatings.

Gold economically meets or exceeds the cleaning capabilities of premium citrus or petroleum solvents - without pungent odors, fumes or environmental damage. Gold has no VOC's, virtually no odor, and does not irritate normal skin during limited contact. Unlike other solvents, Gold can be rinsed off with water alone, leaving surfaces clean and virtually residue free. Gold forms a soluble, non-toxic, white color emulsion in the rinse water that has a near neutral pH and is 100% biodegradable.

### PRODUCT USES:

Gold is excellent for cleaning and degreasing concrete, unpainted metal, and other industrial surfaces. It is particularly suited for use indoors or in confined or poorly ventilated spaces such as vessels, tunnels, or lift stations. Low odor, slow evaporation rate, and free rinsing properties make Gold the ideal choice for concrete repair projects to remove old grease, grime, mastics, paints, etc. Gold is also recommended for use with Nature's Way bioremediation products, serving to break down tough or viscous hydrocarbons for accelerated elimination by microbes.

### BENEFITS INCLUDE:

- **Non-toxic, no VOC's, fumes, odors, or pungent scent**
- **Non-Flammable, flashpoint over 280 degrees F.**
- **Meets or exceeds citrus and solvent performance**
- **Economical. Priced below competing products**
- **Rinses off completely with water**
- **100% biodegradable, environmentally friendly**
- **Harmless to microbes in sewers and water treatment**

The Nature's Way Line of Products is covered by

U.S. Patent number 5,561,059

ALL INGREDIENTS ARE COMPLETELY

BIODEGRADABLE
