

Nature's Way Marine Clean

WATER TREATMENT AND CLEANER *with select, natural, oil-consuming microbes*

Quickly and economically bioremediate hydrocarbon contaminated water.

Nature's Way MarineClean is an aqueous cleaner and bioremediation agent for cleaning and/or elimination of unwanted hydrocarbon wastes in the marine environment (food or petroleum). It contains naturally occurring aerobic microbes, specially adapted to consume hydrocarbons in water. Working in both salt and fresh water, MarineClean quickly emulsifies and transform oily wastes into harmless by-products (carbon dioxide and water). MarineClean breaks down hydrocarbons into small particles for easy assimilation by the microbes. Oils found in high concentrations, such as in oil storage tanks, reservoirs, oil pans, etc., will not be effected by microbes.

- Reduces VOC's on contact
- Eliminates sheens permanently on contact
- Biological action eliminates hydrocarbon wastes
- Powerful cleaner/degreaser. Use to clean concrete, metal, wood, rocks, etc.
- Does not cause BOD or OD problems in sewer systems
- Inhibits oils from coalescing in water and diminishes affinity for sticking to surfaces

PHYSICAL FORM

Liquid - Pale blue, pleasant scent

PACKAGING

55 gal plastic drum (208 L.)

5 gal plastic pail (19.93 L.)

Bulk (275 gallon containers or larger)

AREAS FOR USE

Aquatic & marine environments

Bilges & engine rooms

Metal, concrete and shore lines

Water tanks and circulating water systems

TEMPERATURE LIMITS

32 deg F to 120 deg F

SAFETY

pH - approx. 8

Wet Flammability -Non-flammable

Dry Flame Spread - N/A

Threshold Limit Value - Non-toxic

Medical - Refer to MSDS

COVERAGE

Waste Water - variable, contact local Representative. For all other uses refer to instructions

TOOLS FOR APPLICATION

Pressure spray equipment

Aeration & Circulation equipment

LIMITATIONS

Any chemicals or conditions that will destroy live microbes will limit bioremediation. Do not mix with conventional cleaners. Microbes tolerate salt water up to 1 1/2 times normal sea water.

WEIGHT

8.34 lbs/liquid gallon (1Kg/L.)

DOT SHIPPING LABEL

Not required

APPLICABLE TEST REQUIREMENTS

As required by governing authority.

DIST BY:

The Nature's Way Line of Bioremediation Products are covered by U.S. Patent number 5,561,059
ALL INGREDIENTS ARE COMPLETELY BIODEGRADABLE
