

Nature's Way SoilClean

SURFACE SOIL RESTORER *with select, natural, oil-consuming microbes*

The fast, safe easy way to restoring contaminated soil to it's natural state.

Nature's Way SoilClean is an efficient and rapidly acting product for the bioremediation of soil contaminated with hydrocarbons in a safe and cost effective manner. It is intended for use on soil with shallow contamination (less than 4"). SoilClean emulsifies the contaminating hydrocarbons while inoculating the soil with our selected naturally occurring microbes that transform the contaminants into non-toxic substances. Although SoilClean is primarily intended for use in soil and grass, it can be applied to spills on most any hard surface including concrete, asphalt, and gravel.

SoilClean is recommended for use by those seeking to return petroleum or food based hydrocarbon contaminated soil to its original condition as rapidly and economically as possible. Areas for use include fueling stations, equipment rental and storage yards, around vehicle repair shops, refineries, compressor stations, sample points, ditches, wash pads, low areas of property, and wherever unwanted hydrocarbons exist.

- **Faster than past bioremediation technology**
- **Extensive training and special skills are not needed**
- **No need for expensive equipment**
- **Extremely cost effective as compared to other methods**
- **No special training required**
- **Biodegradable: Non-toxic to people, wildlife, and vegetation**
- **Safe to use and handle, not-irritating to skin or lungs**

PHYSICAL FORM

Liquid - Pale yellow, pleasant scent

PACKAGING

55 gallon plastic drums (208 L.)

5 gallon plastic pail (19.93 L.)

Bulk (275 gallon container or larger)

AREAS FOR USE

Soil contaminated with petroleum hydrocarbon

TEMPERATURE LIMITS

32 deg F to 120 deg F

SAFETY

pH - approx. 8

Wet Flammability - Non-flammable

Dry Flame Spread - N/A

Threshold Limit Value - Non-toxic

Medical - Refer to MSDS

COVERAGE

TPH under 25,000 - 1/2 gal per cubic yard

TPH over 25,000 - 1 gal per cubic yard

TOOLS FOR APPLICATION

Varies with site requirements

Refer to instruction sheets

LIMITATIONS

Any chemical or condition that will destroy live microbes, will limit bioremediation.

Do not mix with conventional cleaners

WEIGHT

8.34 lbs/liquid gallon (1Kg/L.)

DOT SHIPPING LABEL

Not required

APPLICABLE TEST REQUIREMENTS

As required by governing authority.

DIST BY:

The Nature's Way Line of Bioremediation Products are covered by
U.S. Patent number 5,561,059
ALL INGREDIENTS ARE COMPLETELY BIODEGRADABLE
